ACTIVALGA

TECHNICAL DATA SHEET

MICROALGAE EXTRACT-BASED BIOSTIMULANT

PRODUCT DESCRIPTION

ACTIVALGA is a liquid biostimulant formulated with extracts from two microalgae strains to support crop development. Rich in naturally occurring bioactive compounds, including chlorophyll, vitamins, and amino acids, **ACTIVALGA** enhances plant vigor and promotes consistent, uniform growth.

CHEMICAL COMPOSITION

Compenents	Content
Microalgae extracts	62%
Free amino acids	6%
Micronutriments	6%
Organic matter	3%

PHYSICAL PROPERTIES

Solubility	Density	pH
100%	1,05 g / litre	< 5

KEY BENEFITS

- Promotes vegetative growth and supports balanced plant nutrition.
- Enhances overall crop vigor.
- Contributes to improved crop yield.

* Non-contractual commercial document, subject to change.

NUTRIBIOTEK

Batch N°. 83, CFCIM Industrial Park, Ouled Saleh, Nouaceur Province,
Postal Code: 27184, Casablanca – Morocco

APPLICATION METHOD

Crops	Application rate		Application stages	Application frequency
	Foliar	Drip irrigation		
Fruit trees and citrus crops Avocado, grapevines, olive trees	3–5 L/ha	5L / ha	• At transplanting • During vegetative growth • At pre-flowering / fruit set • During the early stages of fruit development	One application every 15 days. * During periods of extreme temperatures, drip irrigation application is recommended.
Berry crops	2–5 L/ha			
Vegetable crops	2-5 L/ha		• At transplanting • During the early stages of fruit development	

PACK SIZES

Available in 1 L and 5 L pack sizes.

CONDITIONS OF USE

- Apply the product preferably early in the morning or late in the evening.
- Do not apply to fruit trees during full bloom.

STORAGE CONDITIONS

- Use the product immediately after opening.
- Store in a cool, dry place, protected from light and direct sunlight.

* Non-contractual commercial document, subject to change.
